DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art teaches of hinting image data such that a feature defined by one or more selected control points, wherein the position of at least one of the selected control points does not coincide with a boundary between pixel sub-components, is adjusted to a position that corresponds to a designated, high contrast boundary between pixel sub-components. While prior art does teach of hinting image data so that portions of the image are aligned with sub-pixel boundaries, the claimed feature of aligning the image attributes with designated, high contrast, sub-pixel boundaries is not taught.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
